Revise Special Provisions Section 10-1.77 "CABLE RAILING" as follows:

10-1.77 CABLE RAILING

Cable railing shall conform to the provisions in Section 83-1, "Railings," of the Standard Specifications. After galvanizing, cable railing shall be painted in conformance with the provisions in Section 10-1.69, "Clean and Paint Structural Steel," of these Special Provisions. At the Engineer's direction, in lieu of painting, cables shall be coated with plastic. Plastic coating shall be white, or as approved by the Engineer, and shall be polypropylene, polyethylene, or polyvinyl chloride, and shall be nominally 1/16" thick. A plastic boot or tape of the heat-shrink type shall be applied to the cable where it connects with fittings. The boot or tape shall extend over the fitting at least one inch.
